

## Terminal Blocks

Our ceramic terminal block fits all special purpose and general purpose heads. It is easily field configurable for single or dual sensor applications and can be used with either thermocouples or RTDs. Its ceramic base protects against elevated temperatures and the brass contacts make it easy for field wiring. The compensated block used in EHA and EHI explosion proof heads is available with thermocouple contacts.

### Ceramic Block

**Order Codes:**

TB102 - Ceramic Block - Single TC  
 TB103 - Ceramic Block - Single RTD  
 TB104 - Ceramic Block - Dual TC  
 TB106 - Ceramic Block - Dual RTD

### Compensated Block for EHA and EHI Heads

**Block Order Codes:**

TB202 - Block - Single TC  
 TB203 - Block - Single RTD  
 TB204 - Block - Dual TC  
 TB206 - Block - Dual RTD

### Compression Block for EHA, EHI, EP Series

**Order Codes:**

CB102 - Block - Single TC  
 CB103 - Block - Single RTD  
 CB104 - Block - Dual TC  
 CB106 - Block - Dual RTD

\*Note: For thermocouple contacts insert calibration letter following block part number. This block can be used in a junction box and is available in a one piece construction with up to 20 points. To order follow the ordering sequence above. i.e. TB220-J is a single terminal block with 20 points for an Iron Constantan® thermocouple.

## Extensions

Nipples and unions are constructed of galvanized carbon steel as a standard construction. Adding an S to the end of the order code gets you a corrosion resistant stainless steel extension. Standard extension size is 1/2" NPT.

**Order Codes:**

N Nipple  
 NS Nipple - Stainless Steel

**Length:**

1" Minimum

**Order Codes:**

NU Nipple/Union  
 NUS Nipple/Union - Stainless Steel

**Length:**

2" Minimum

**Order Codes:**

NUN Nipple/Union/Nipple  
 NUNS Nipple/Union/Nipple - Stainless Steel  
 PNUN Pressure Seal in Union - Galvanized  
 PNUNS Pressure Seal in Union - Stainless Steel

**Length:**

3" Minimum

**Order Codes:**

HUNS Hex Nipple/Union/  
 Nipple Stainless Steel

**Length:**

3" Minimum
